

CONSTRUCTURE

Building Construction Futures

Member Charter

Constructure takes its responsibility as a facilitator of change within the apprenticeship agenda and within the industry very seriously. By driving forward an agenda of awareness, understanding and practical support for apprentices and apprenticeships Constructure leads the way in this essential element of the success of the construction industry and UK Plc.

This charter is a condensation of the specific aims and goals of Constructure seen through the filter of a members organisation.

All of the commitments made below will be championed by members as well as Constructure itself.

All members shall;

1. Uphold the values and objectives of Constructure and support the organisation in the development of apprenticeships in general and the skill agenda at large.
2. Use all practical means to publicise and improve levels of understanding of the work of the Constructure both within its own organisation and the supply chain it collaborates with.
3. Actively participate in Constructure meetings and proactively support the delivery of meaningful outcomes wherever possible.
4. To assist and support the organisation in developing sustainable, meaningful business relationships within the influence of the Constructure membership.
5. Encourage and participate in dialogue, discussion and debate about the role of apprentices and other skilled workforce individuals within the UK construction industry.
6. Support the expansion of dialogue within the construction industry, supply chain, peer groups and regional and national government.
7. Act as an 'entry point' to questions relating to Constructure and provide signposting to the appropriate individual within Constructure for employer or membership enquiries.
